

2 November 1979

STAT MEMORANDUM FOR: [REDACTED]
DDA Communications Requirements Coordinator

FROM: Charles A. Bohrer, M.D.
Director of Medical Services

SUBJECT: OMS New Communications Support Requirements
FY 1982 - 1986

REFERENCE: DDA Memo 79-0112/5 dated 28 September 1979

OMS requires increased communications support between Ames Building and Headquarters. The mandated increase in medical/psychological examinations for selection of applicants and updated usage of our medical computer system requires increased transmission/communication capabilities. Failure to provide this service in FY 1982 will significantly impair the Agency's ability to process employment candidates and employee dependents in a timely fashion.
